

CURBSIDE PICKUP

The safety and health of this community is always our priority. Whether you are strolling through or picking up, we **[always]** want to put you in a **[good]** spot.

Please continue to contact individual stores for hours, services and pickup procedures.

1

Purchase your curbside pickup order from your favorite eateries & shops.

2

Read the store's pickup instructions and look out for which Zone they assign you to.

3

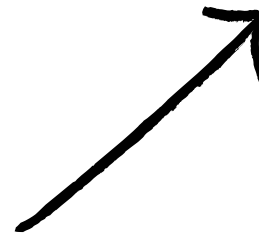

Locate your Zone on the map before getting to the property. You can also look at the map to find out which Zone is closest to the store.

4

When you arrive onsite, park in your assigned Zone.

5

Once you've parked, call the store from which you placed your order and let them know which Zone/Space # you're in (ex. Zone A-Space 2). The store will service you from there!

*Please note that select restaurants and stores may have their own curbside pickup area, which is why it is important to confirm with the business you've ordered from.

We **[always]** put you in a **[good]** spot.
