

SAFETY PRECAUTIONS

The safety and health of this community is always our priority. Whether you are strolling through or picking up, we **[always]** want to put you in a **[good]** spot.

The following measures are being implemented to ensure your safety while on property:

- Our onsite cleaning crew is focused on extra sanitation in high traffic areas (i.e. handrails, door handles, etc.).
- Curbside pickup is available from most businesses. Contact each business for individual details and policy.
- The Center will follow the latest Executive Order, however you are still required to check with individual businesses and abide by each mask and store policy.
- Wash your hands often and use hand sanitizer.
- Practice social distancing – keep 6 feet apart.
- Do not block the sidewalk, walkways, and doorways.
- Please consider staying home if you are sick or not feeling well.
- Consider taking your temperature before leaving home.
- Rules of Etiquette are still enforced during this time.

We will continue to revise these precautions.

We **[always]** put you in a **[good]** spot.
